With experience in business application and game development, a strong working knowledge of the agile process, and the experience of developing products from concept to publishing to post-release patches, I believe my wide range of skills and experience brings value to any team. I look forward to putting my skills to the test, through continued contributions and learning, to become a better developer every day.

Skills

C#/.Net 3.0 - 4.7	Bootstrap	Javascript/JQuery	Professional Scrum
Net Core 2.0 – 6+	ASP.net	API	Master I
CSS & associated libraries	SQL/RDBMS	MVC/MVVM	Professional Scrum
	HTML	Scrum Agile	Developer I

- Develop software for new products

PTS Solutions September 2018 - February 2020

- Develop and maintain desktop applications in WPF and Winforms using SQL Server

Publications

Xenia's Ark

https://store.steampowered.com/app/944640/Xenias_Ark/

October 2018

Xenia's Ark went into early access in 2018 and was fully released in August of 2021 -- a 4X, turn-based, strategy game produced using Unity and C#. I initially worked on Xenia's Ark in the area of game design, and later incorporated programming to my duties. I have worked on various projects since becoming a developer, but Xenia's Ark is by far my proudest achievement. The creation process from idea to marketable product and beyond has taught me many valuable lessons that I use daily for guidance on my current projects.

Education

B.A. in Philosophy

University of New Orleans

2002
